Re: List of Exchanges A - Exchanges for Probable Reassignment to POI

SUMMARY: Local exchange carriers (LECs) must respond no later than **October 5, 2005, stating whether or not the LEC is serving physically located customers in any of the exchanges listed on the attached sheet.**

Attached is a list of exchanges being considered for reassignment to a competitive local exchange carrier (CLEC) point of interconnection (POI) pursuant to the Reassignment to the POI Agreement approved in docket DT 00-223 by Commission Order No. 24,419.

The exchanges listed all have the following characteristics:

- 1) the NXX code is assigned to a single carrier
- 2) no number pooling has been implemented for the NXX
- 3) the carrier to which it is assigned has no physically located customers in the exchange.

Therefore, the exchanges on this list (which will be referred to as List A) are being considered for reassignment to the relevant CLEC's POI. This reassignment could affect physically located customers who are being served with numbers PORTED from these exchanges.

Accordingly, LECs are asked to review this list to determine if they are serving any physically located customers in any of the following exchanges. CLECs must respond in writing, whether they have customers or not in any of these exchanges, no later than October 5, 2005. CLECs may respond via email to me at kath.mullholand@puc.nh.gov, by fax to 603-271-3878, or by regular mail.
